WEB & GRAPHIC

Summary

I am a qualified web and graphic designer with 2+ years work experience in the creative field. I am currently seeking work experience in the web-related industry where I am able to contribute my ideas, and enhance my skill sets as a web developer.

Skills

Professional Skills

Web Design

Highly confident in HTML, CSS with javascript, jQuery and various API experiences.

UX/UI

Ability to research, create and develop prototypes for users. I go through in-depth research, multiple user testings to deliver the best outcome to the client.

Graphic Design

Advanced skills in Adobe Photoshop, Illustrator and InDesign, and proficient in using both Mac and PC platforms.

Latest Web Projects

Kiwi Travel Rental Application

Web application using Mapbox API, allowing users to input their travel details to search for their ideal vehicle.

Tepapa Cafe Web Application

A simple, fully responsive digital ordering app for Tepapa cafe, allowing customers to order food from their table.

City to Sea Bridge Website

First UX design group project, with the purpose of advertising and providing information about the Wellington landmark. UX design practices were carried out and the website was later made responsive, available to view on all devices.
